Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-7, 13, 14, 19, 20, 22, 23, 27, 28 and 36-38 are rejected under 35

U.S.C. 102(b) as being anticipated by Spring, Jr. 5,884,824.

Spring teaches an equipment sport rack comprising support members 38, 40, a cargo device 76, 64, an adjustment device 68, 82, 84, a positioner 58, and connectors 52, 54.

2. Claims 27-34 are rejected under 35 U.S.C. 102(e) as being anticipated by Robins et al. 6,286,738.

Robins teaches a bicycle carrier comprising support columns 28, a cargo holder 24, 26, and an adjustment device 94, 96, 98. See also column 5 lines 44-63.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spring, Jr. 5,884,824 in view of Ferguson 6,520,393.

Art Unit: 3727

Spring teaches the claimed invention except that the cargo device is in the form of an open ski holder instead of a tray. Ferguson teaches a similar equipment support rack in which the cargo device is in the form of a tray 12 is attached to a rack in the same manner as taught by Spring and allows the transportation and securing of a larger variety of cargo. It would have been obvious to modify the device of Spring to incorporate a tray as taught by Ferguson for the reasons stated above since both inventions teach cargo carriers that are intended to be mounted to the roof of a vehicle.

5. Claim 35 is rejected under 35 U.S.C. 103(a) as being unpatentable over Robins et al. 6,286,738 in view of Goodness 5,842,615.

Robins teaches the claimed invention except that the cargo device is in the form of a bicycle carrier instead of a tray. Goodness teaches a similar cargo carrier in which the cargo device can take many forms one of which is a bicycle carrier (see figures 18-20) and another which is in the form of a tray (see figure 23 and 24). Given this teaching it would have been obvious to modify any vehicle attached carrier with a cargo device designed to hold a bicycle (such as the carrier of Robins) to also optionally form a tray in order to hold and secure a larger variety of cargo.

Response to Arguments

6. Applicant's arguments with respect to claims 1-7, 9-14, 19, 20, 22, 23 and 27-38 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
